

VISUAL ARTS AND DESIGN EDUCATORS ASSOCIATION

## K-6 Digital Media Workshop

In recognitions of the developments in digital media within the classroom the Visual Arts and Design Educators' Association has arranged a number of workshops to assist teachers in their classroom delivery.

The digital media workshops will present a range of approaches to consider in the use of digital technology and programs that will support teachers in extending their use of ICT in the Visual Arts classroom.

The workshops presenters have been selected on the basis of their extensive experience in the delivery of technology within the classroom. The size of the workshop class is limited to 10 attendees to ensure an optimal educational experience.

Resources such as programs, sample CD and specific work samples produced on the day will be given to attendees.

The workshops are designed to provide 'hands on' experience and a supportive environment that identifies the needs of teachers.

Presenters will assist in the guiding teachers to develop effective strategies and projects in digital media.

All digital media workshops are designed for teachers at a fundamental level on completion of this workshop extension courses will be offered.

Course Location

**MLC School  
Rowley Street Burwood**

Course Date

**12 September 2009  
9:00am registration  
9:30am – 3:30pm**

Course Price (incl GST)

**Members \$110  
Non-Member \$167**

Courses on offer in the Digital Media Workshop are: -

### **Key note address ICT in the Classroom**

A presentation will be given based on the impact of ICT in the classroom. For the delivery of Visual Arts lessons digital technology has radically shaped teachers approaches and opportunities for learning. The keynote will explore the application of blogs, virtual galleries and Virtual Reality Modelling Language and their impact in the visual arts classroom.

### **Stop Motion Animation – Ben Finch**

The world of animation is unlocked in this engaging and fun workshop. This class will produce their own Claymation as well as work on other animation techniques that can be used in the classroom. The operating program will be i-stop motion but skills can be employed in motion animation programs. Attendees will burn a DVD of their projects.

### **Photoshop and Digital Photography – Nadine Goss**

This workshop concentrates upon getting you to know the Photoshop interface and develop a range of activities that harness the creative power of this program.

### **Videography and Super-short films Craig Malyon**

This workshop will provide an introduction of video production and its effective use in the classroom. From the 'shoot' to SFX and DVD mastering attendees will cover most aspects of video production and complete a super short video.

**Digital Media  
Workshops Program**
